PREVENTION OF CRIME—ALL THE COMPLAINTS MADE ON HIS APPIDAVITS DISMISSED.

At the Tombs Police Court yesterday afternoon, the examination in reference to the complaint of Charles S. Kimball, agent of the Society for the Prevention of Crime, against Thomas Burns and a person designated as "Doc," for keeping gam5ling houses at Nos. 1 and 15 Ann-st., was held in the private examination room before Justice Wandell. Before the complaint was taken up, Mr. Oliver stated to the Court that he proposed to prove that the complainant Kimball was guilty of wilful and deliberate perjury. Kimball was then sworn, and Mr. Oliver proceeded to examine him as to the circumstances attending the charge of gambling against the accused men. He declined to state how he had received his information in regard to No. 15 Ann-st., but was positive in his own mind that he played faro there at or about the time mentioned in the complaint. He never told Thomas Burns that he had sworn out warrants against him, and never told him that he was to deliver himself up. He did not know that he was guilty of wilful periury. He was positive that he played faro there on March 6, 1881, at noon. Here the witness manifested considerable embarrassment under the examination and asked to be aided by the advice of D. J. Whitney. After some faltering and hesitation he said that he would decline to state whether or not he had made a sworn affidavit that the statements made by him in his original complaint (upon which the warrants were issued) were untrue. Mr. Oliver then produced a document and handed it to Kimball with a request that he would state to the Court whether the signature attached to it was forged or genuine. He acknowledged that the signature was written by himself. Mr. Oliver then read the document, which was as follows:

Charles A Kimball, being duly sworn, deposes and says that he is the person described in, and who made,

Robert Hill, of No. 112 New-Chirch-st., was shot by Patrick Callahan, of No. 26 Washington-st., at Reinhardt's Emigrant Hotei, No. 2 Greenwich-st. Robins of p. m. Sanday. The bullet lodged in the lott site of Hill's head, and was afterward extracted by ex-Coroner Shine, who said that the wound was a serious one but would probably not result fatally. Hill was afterward taken to his home. Callahan made in seasape, but was arcested about an hour afterward by Officer Park, and locked up in the Iwenday Seventh Precinct Station. The shooting was the result of a series of quarrels in relation to the death of Callahan's father from the result of inpurios received in a riot at Morris and Washington-sis. on last election day. The notice say that the reputation of both men is not good. Patrick Callahan and Michael Callahan were arraigned before Justice Morgan yesterday, at the Tombs, on a charge of felonious assault. Robert Hill made an affidavit stating that while he was sitting in the bar-room of the notel Sunday night, Patrick Callahan entered, and, without any altercation or provocation whatever, deliberately discharged one barrel of a revolver at him. George Miller, the proprietor of the hotel, made a charge agamat Mechael Callahan of having pointed a loaded revolver at him after Hill had been shot, and threatened to take his life if he interposed or called in the police. BURGTARIES IN QUEENS COUNTY.

Burglaries have been of almost nightly occurrence the past month in the villages of Queens County. Pive of the robberies occurred in the village of Plushing, and all the efforts of the Queens County officers to arrest the perpetrators proved unavailing. It now appears that two, if not more, of the gang of thieves arrested in Leona d-st., New-York, last week, were concerned in some and perhaps all of the burglaries. Yesterday Patrick Nos and James Myer, two of the arrested persons, were arraigned before Justice Frame, at Flushing, and committed for the Grand Jury's action on the charge of burglary. Nos and Myer are both, old offenders. Eleven years ago Nos was arrested for robbing the house of William B. Draper at Flushing, and served live years in the State Prison for the offence. Myers is known to the authorities as a burglar and horse thief. Goods stolen from houses in Flushing were found upon the prisoners when arrested.

LECTURES ON FOREIGN TRAVEL.

John L. Stoddard began a course of lectures last night at Chickering Hall on foreign travel. A large andience was present. The lecture was entitled "The Country of the Moors, or Travels through Sunny Spain," and was illustrated by a series of stereopticon views, among which were views of Toledo, its picturesque bridges and gloomy battlements; of Cordova, the Spanish Athens, with the tower of Abdurrahman the Great and the celebrated Moorish Mosque; of Seville, its Tower of Gold, the gardens of the Duke of Montpensier and the cathedral; of Granada and of the Albambra, showing the gate of Jastice and the many courtyards and fountains of that Moorish palace. A series of pictures showing the different stages of a Spanish buil-fight were among the views presented. The remarks of the speaker and the views, many of which were colored, called forth frequent appliance.

FILLING DR. CHAPIN'S PULPIT.

The Rev. Dr. J. P. Newman, paster of the Central Methodist Episcopai Church, will preach next Snuday in the Church of the Divine Paternity (Universalist). It is reported that Dr. Newman has stated to the trustees of the Church of the Divine Paternity that if his religious views were acceptable to them he would accept a call to the church. A TRIBUNK reporter called to see Dr. Newman last night in regard to the matter. The clergyman pleaded sickness, and sent his wife to say that he intended to occupy the pulpit of the Church of the Divine Paternity only on next Sunday. He had been asked before by the trustees to preach, but could not accept the invitation until he could fill his own pulpit. The Presiding Elder of the Methodist Church will conduct the service at Dr. Newman's church next Sunday, and he is consequently free. Mrs. Newman also stated that her husband had not changed his views.

RULES FOR THE TURF CLUB.

At a meeting of the foundation members of the Turf Club at the Union League's old club house, at Madison-ave, and Twenty-sixth-st., last evening, the committee appointed a week ago to prepare a constitution and by-laws made a report, which was adopted. The constitution and by-laws are modelled after those of the Union Club of this city. More than eighty new names were added to the list of membership. The club building will be open to members Saturday, April 2.

LOOKING FOR A YOUNG RUSSIAN. Mr. Wehtzky, the Russian Consul-General in this city, wrote yesterday to the Mayor of Trenton asking that a search be made in that city for Ivan Wassiheff, a young Russian, who disappeared from Vienna last year. Mrs. Julia Kusentscehank, a widow, arrived in this city from Germany in August, 1877. and shortly afterwards obtained a situation in the household of Philip Gratz, of No. 622 Ninth-ave, who keeps a liquor store at Ninth-ave, and Forty-fifth-st. Gratz is a widower with several grown up children. When the widow was engaged he appeared to prefer her society to that of his children, and she was almost continually in his company. A few days before last Christmas he dismissed her from his service, giving her \$17 as a Christmas gift. He did not hear from her again until March 17, when he was served with a summons to appear at the Harlem Police Court to answer a charge of abandonment preterred by the widow, who claimed to have been married to him in June last. Gratz and his triends and the complainant and her counsel appeared before Justice Otterbourg vesterday afternoon. The complainant alleged that in June Gratz brought four men to his shop, one of whom said that he was a minister, and performed the marriage ceremony between them. For some months Gratz acknowledged her as his wife, but a few days before Christmas he turned her away from her home. Several witnesses corroborated her statements.

Gratz seemed to regard the aftair as a huge joke. He said that on the night referred to, the widow was with a number of men in his store, when one of the men in a playful manner pronounced them husband and wife. He thought no more of the matter until he was summoned to appear in Court. George Egerer, of No. 1,948 Third-ave, said that he was the man who performed the marriage ceremony. He always regarded the aftair as a joke. A number of witnesses testified that the complainant was never known as the wife of Gratz, but was always looked upon as his servart.

Justice Otterbourg said that he would carefully examine the papers and render his decision in a few days. HE DID NOT FOLLOW MR. WELLER'S ADVICE.

A DISAPPEARANCE UNEXPLAINED.

Henry J. Roberts, the marine news reporter of the Associated Press at City Island, mysteriously disappeared about two weeks ago, and since then notidings of him have been received by his associates. The attacks made upon him by the Hell Gate nilots and their threats of personal violence for giving evidence to the committee of the Legislaure in relation to the Hell Gate nilotsage system and its burden upon commerce, have been mentioned heretofore in The Tribuna. The pilots threatened Roberts with bodily harm, and afterwards one of his boats was destroyed in the night, a note being found in the morning warning him to leave the island if he did not wish to suffer worse treatment. It is believed that he has either run away or met with punishment at their hands. W. O. Lewis, superintendent of the Ship News Burcau, has received a letter signed "A Friend," and dated "City Island March 9," in which the writer says that Roberts was arrested "last Saturday night," by a detective and a policeman, at the Morrisaula depot, and talent to the Tombs, on the charge that he was married on the Thursday previous to his third wife, and it was supposed that "wife No. 1 had seized him."

Search has been made at the Tombs and other places for Roberts, but without success. It is thought that the anonymous letter was written to mislead inquirers. Before his dizappearance Roberts torrowed \$40 from Postmaster Horton, at City Island, giving his boats at security.

THE TROUBLE AMONG THE BREWERS. THE TROUBLE AMONG THE BREWERS.

There is considerable excitement among the beer brewers, caused by the discharge by several brewing firms of men in their employ for the reason that they were members of a newly formed union of browery employes. More than a dozen trade unions have passed resolutions in reference to this matter, piedging their members not to patronize any beer shop where the beer of the offending firms is sold. Resolutions to that effect have been passed by the following organizations: The Furniture Workers' Union; the Cigar Makers' Union the Lounge and Sofa Upholsterers; the Custom Tailors; the Carpenters; Cigar Makers' Union No. 144; the Shoemakers' Union; the Wheelwrights and Blacksmiths; the Tinamiths; the Williamsburg Tailors' Union; the Varmishers' Union.

A SOUND STEAMER DELAYED. A SOUND STEAMER DELAYED.

The storm and fog of Saturday night and Sunday delayed the Sound beats going both ways more or less. The most serious delay was that to the Fall River Line steamer Newport. She left Fall River Saturday night at the usual time, but, the weather being severe, she went no further than Newport until 9:30 a. m. Sunday. After passing out of the harbor she encountered a very rough sea, and rounding Point Judith the vessel was tossed about nearly in the trough of the linge waves. She arrived off City Island about 10 p. m. Sunday, when the darkness and dense fog made it necessary to anchor until yesterday merning to avoid the dangerous navigation from Fort Schuyler to New-York.

THE TRIAL OF JAMES DUNNE. The trial of James Dunne, ex-Deputy Coroner of Brooklyn, for a brutal assault upon ex-Judge Morris, with intent to kill, was begun in the Court of Oyer and Terminer in Brooklyn yesterday. The case was called before Judge Cullen, with whom sat Associate Judges Gubner and Rogers. The prosecution was conducted by District-Attorney Catlin and Chauncey Shaffer. Dunne was defended by General B. F. Tracy and William A. Beach. Most of the time was consumed in securing a jury. The examination of witnesses will begin to-day.

HOUSE OF REPRESENTATIVES.

For the first time in life I am induced to give a testimonial.

Noticing in some paper an advertisement of Dr. Scott's Electric Hair Bruan I sent \$3 for one and find it indeed a remarkable brush. My wife has for years suffered with headaches.

The brush curves them at once. Several friends have used if able brush. My wite has for years suffered with headaches. The brush curres them at once. Several friends have used it for headaches and it has never failed. My wite was also getting prematurely bald, but the brush has entirely stopped the falling hair and started a new growth. I use it to remove dandruff and it works like a charm. Five times the cost could not buy my Brush if could not replace it. To-day I bought of McAlmont, druggist, of this place, two brushes to send to friends who have tried mine and requested me to buy for them. Colonel Ponder, Mayor of Walnut Ridge, was attacked by a severe case of sick headache while at my house. He was very sick. My wife proposed to try the brush, which he by a severe case of sick headache while at my house. He was very sick. My wife proposed to try the brush, which he smally consented to do, with 56 faith in it, however. In three minutes he said he never telt better in his life, and directed me to send him a brush. I have authorized McAlmont, the druggist, to use my name in recommending it. Yours truly, GEORGE THORNBURGH,

Speaker of the House of Representatives Little Rock, Ark., Feb. 12, 1881.

DISEASES OF THE NERVOUS SYSTEM.

The importance of the nervous system, its power over life, and the direct bearing which it flas on human happingss, is thoroughly recognized; its uses and the danger of overtaxing it, whether through intense mental application or by the property indiagence of the appetition and an expensive of the property of the property seek advice from an expert who, or a long series of recasts of the property seek advice from an expert who, it is absoluted to a long series of years, has devoted his whole time and attention to this study, and who, from als experience and products, has tearned to discover at once the cause and as promptly apply the remedy, thus avoid in the painfully slow seeking the truth so common to the inexperienced, and so asympt to the patient, who, very naturally, wants to know without delay what is the matter, the extent of the derangement, the probabilities of recuperation, and the time required.

If the brain has become exhausted by intense mental application, depriving it of the power of connected shought, it can only receiver list strength by being properly fed and nour-cisely the same with the nerves that present every grantific. The value of this branch of medical practice can scarcely one overrated, for it reaches marriage, the perpetuation of family names, the occurring of hereditary titles, and the retonion of estates in the same family.

From a long and large experience in this direction, I have been able to command by my success the thankful appreciation of some of the first families in the city an Nation, and I can communicate much that previous are presented to property department of the nervous service and the means of recovering its powers, whether of brain, appetite, proposity or passion.
